Introduction

This assessment is to support Manila Manufacturing Corporation (MMC), a medium-sized company that produces consumer goods. The company is looking for a way to modernize its operations and remain competitive with suitable technologies and how it can be implemented effectively.

The purpose of this interview is to gather information directly from stakeholders at MMC regarding the company's current state and overall readiness to adopt new technologies. The gathered information will serve as the basis for technology recommendations from TechVision Consulting Inc.

Interviewer Instructions

1. Please introduce yourself and explain the purpose of the interview before beginning.
2. Assure the interviewee that their responses will be kept as confidential.
3. Ask each question clearly and respectfully, and allow enough time for the interviewee to respond.
4. Use follow-up questions if the response needs further clarification.
5. Maintain a professional tone when speaking with the interviewee.
6. Thank the interviewee for their time and participation.

Guided questions

Background and Current State:

1. Can you describe your responsibilities at MMC?
2. How long have you been working at MMC?
3. What are the current technologies that are used in your company?
4. Are your processes mostly manual or automated, or both? Give an example.
5. What types of consumer goods does MMC currently produce?
6. What does your production process look like, from raw materials to finished products?
7. What are the challenges you currently experience in your daily operations?
8. In your opinion, which part of MMC's operations is most in need of technological improvement? Why?

Technological Awareness and Readiness:

9. Are you familiar with emerging technologies such as AI, IoT, or cloud computing? Can you elaborate on what you know about them?
10. What concerns do you have about adopting new technologies?

11. How ready do you think MMC is to use new technologies on a scale of 1-5? Why?

Industry and Competitive Analysis:

12. Do you know if your competitors use emerging technologies in their operations?

13. How important do you think adopting emerging technologies is to maintain competitiveness?

14. Do you think your company is left behind or keeping up with modernization?

Specific Technology Areas:

15. Does MMC use any artificial intelligence (AI) in its operations? (Yes/No)

If yes, how is it being used? If no, do you see any potential use for it?

16. Does MMC use any machine learning (ML) in its operations? (Yes/No)

If yes, where is it applied? If no, which area of the business do you think could benefit most from it?

17. Does MMC use any cloud computing in its operations? (Yes/No)

If yes, what data is stored in the cloud? / If no, what prevents MMC from using cloud computing?

18. Does MMC use any Internet of Things (IoT)? (Yes/No)

If yes, how is this currently being used? / If not, how do you monitor equipment performance instead?

19. Has MMC considered using augmented reality (AR) for training? (Yes/No)

If yes, how has it helped so far? / If no, do you think it could be useful for these tasks in the future?

20. Does MMC collect big data to support business decisions? (Yes/No)

If yes, what kind of data is collected, and how is it used? / If no, what kind of data do you think would be most useful to collect?

21. Do you think MMC will need quantum computing in the future? (Yes/No)

If yes, what kind of problems do you think it could solve? / If no, why do you think it may not be necessary right now?

Skills and Capacity:

22. Does your staff have sufficient technical skills to work with new technologies?

23. Do they need more training? And what kind of training do you think is the best help?

24. Are there people in the company that are responsible for decision-making about IT or technologies?

Budget and Implementation:

25. Is there an allocated budget at MMC for technology adoption? (Yes/No)

26. What is your expected timeline for implementing new technologies, if any?

27. Who will be responsible for the process of implementation?

Closing:

28. Do you have any further information to share about the goal of MMC in technologies?

Thank you very much for your time and participation in this interview. Your responses will be useful in helping us evaluate MMC's current state and readiness for technology adoption. These responses will contribute to the recommendations we will provide.
